- Providing Alternatives and Solutions for Common Issues: Offering alternatives and technologies for suppliers to address frequently encountered failures in wastewater testing, such as D4/D5/D6-free, DMFa-free, PFAS-free, APEO-free, Heavy Metal-free or PCA-free products etc.
- Sharing Professional Knowledge and Skills: Providing expert insights and practical guidance on common challenges in sustainable chemical management, such as introducing SDS (Safety Data Sheets) and demonstrating how to leverage SDS to improve chemical management practices at factory levels.
