Sponsorship Proposal

Event
ZDHC Circularity Summit

Where
Lisbon

When
4 + 5 November 2026

Join us in Lisbon for a highly curated gathering of leaders shaping the future of circularity in the textile, apparel, leather and footwear industries.

Our sponsorship packages are designed to go beyond visibility, offering meaningful engagement, thought leadership, and the opportunity to actively demonstrate circular solutions in practice.

About the Event

The Circularity Summit convenes senior leaders from across the textile, apparel, leather and footwear value chain to tackle the practical realities of circularity.

Bringing together brands, suppliers, innovators, NGOs and investors, the event focuses on scalable solutions across recycling, chemical management and finance, creating a high-impact platform for collaboration, visibility and industry influence.

Summit Programme Pillars

TOPIC 1: Mechanical & Chemical Recycling

Cut through the noise of textile recycling.

Explore how mechanical and chemical solutions compare in practice, where they work, where they don't, and what's ready to scale today.

TOPIC 2: Micro Circularity & Chemical Layer

Go beneath the surface of circularity.

From material inputs to chemical management and design choices, uncover what truly enables safe, effective recycling.

TOPIC 3: Finance

Follow the money behind circularity.

Understand what drives investment, what de-risks innovation, and how capital can unlock scale.
