About the Event

The ZDHC Co-Creation Meetings 2026 bring together a global, cross-sector community to co-create practical solutions on key impact topics and accelerate implementation across the value chain.

High-Level Agenda

Day 1: Driving Impact Through Implementation

We will align on sector roles in delivering the Roadmap to Zero and strengthening progress towards 2030.

Key topics include:

- From Strategy to System-Level Adoption
- Supplier to Zero V2 implementation and scalability
- The ZDHC New Digital Era

Focus: Clear alignment on responsibilities, readiness, and next steps.

Day 2: Chemicals & Circularity

We will align on key frameworks and tools supporting chemical management and circular material use.

Key topics include:

- Chemicals to Zero – Aspirational (CtZ-A) framework and implementation
- Impact Data Sheet development and application
- Circular (Fibre) Guidelines
- The future ZDHC Chemical Watchlist.

Focus: Accountability, regulatory preparedness, and enabling circular-ready feedstock.

Day 3: Water Stewardship & Efficiency

We will align on advancing credible, harmonised approaches to water management across the value chain.

Key topics include:

- ClearStream and risk-based wastewater testing
- Harmonised water use benchmarks
- A unified ETP Assessment Protocol

Focus: Practical, measurable actions that strengthen performance, reduce duplication, and enhance credibility.
